Beautify your gifts

Sopp Industrie is the European market leader for particularly beautiful decorative ribbon products.

With SOPP Industrie products you can offer your customers outstanding quality and a fantastic product experience they can feel. For many years, luxury goods manufacturers in the upmarket retail sector and the branded goods industry have relied on our judgement and intuition for the development of value-added packaging solutions.

With individually printed ribbons or bows you can make more than just a personal and distinctive impression on your customers.

Your individual logo on woven taffeta or satin ribbons is not only visually attractive and lovely to touch, but often also leaves a long-lasting impression on your customers and recipients.

Discover the great variety of colours, motifs and bow ideas for your individualized, high-quality decorative packaging for trade and industry.

Our specialist team is always available for any further questions or requests.

Give us a challenge! We look forward to it!

Yours

Michael Gerke & Kevin Maar
CEOs

*More Success
with Bows and Ribbons*

Bows – the ultimate symbol of gifting.
Ribbons have the „stopping power“ to set products on the shelf apart from others.
They indicate more value compared to other products and thus influence buying behavior.

DEVELOPMENT AND CONSULTING

We set the highest standards of quality not only with our bows and ribbons, but also with our service. There are several stages between your idea and the finished product, which we will briefly explain here.

1. From the idea to the design

Every project starts with comprehensive and competent advice. We discuss how we can best present your products and which materials and printing processes are most suitable.

Your wishes and ideas already start to take shape.

2. At the loom

Our products can also be woven to your specifications. Special widths and designs are possible for orders that meet minimum quantity requirements. Soft satin, grippy taffeta or shimmering organza form the basis of your beautiful ribbon.

3. Now things get colourful!

Now the material is dyed. Our colour palette leaves nothing to be desired and, in addition to bright and cheerful colours, also allows for refined natural tones, current trending colours and, of course, classic black and white.

4. Custom prints

Whether you want to place your company logo, specific images and symbols or an effective advertising message on your ribbon: Our high-precision printing processes implement your ideas. With classic flat printing, tactile relief printing and luxuriously glossy accents, your ribbon becomes unmistakable.

Find more informations on page 10.

5. Completion

Finally, the finished ribbon is tied into beautiful bows according to your ideas or completed with special accessories. The result is a special decorative highlight, which is delivered to you right on schedule.

Our made-to-measure bow pattern can be found on page 17.

Branding and customization

A ribbon or even a bow with your distinctive design, such as your company logo, is an excellent way to advertise. Highly modern printing methods and high-quality materials ensure a result that is plain to see and above all easy to feel.

We can offer you customized solutions starting from small quantities at attractive prices.

If you contact us, we will advise you thoroughly and competently so that your product can optimally come into its own.

MONOCHROME PRINT - 1-c print

We offer monochrome printed ribbon from a run of 1.000 m / 20 rolls. You can choose from 4 different ribbon qualities.

Double faced satin ribbon

with woven edge
Satina (Art. 4972)
Page 76 – 81

French taffeta ribbon

with woven wired edge
French Kiss (Art. 4099)
Page 70 – 73

Grosgrain ribbon

with woven edge
Souvenir (Art. 4975)
Page 82 – 83

TENCEL®-ribbon

Ecological produced cellulose yarn,
biodegradable
Tencel (Art. 4300)
Page 36 – 37

Printing options are flat or raised (relief print).

Available with 1 c-printing paste (colours see below) or with golden-/silver metallic foil.

Flat print with color

Flat print with foil

Relief print with color

Relief print with foil

Standard Printing Colours (PMS)

From an order quantity of 5.000 meters, the printing paste can be chosen freely (Pantone C).

PANTONE® White	PANTONE® Process Black C	PANTONE® 429 C	PANTONE® 287 C	PANTONE® 2915 C	PANTONE® 336 C	PANTONE® 7488 C
PANTONE® 012 C	PANTONE® 116 C	PANTONE® 021 C	PANTONE® 187 C	PANTONE® 186 C	PANTONE® 217 C	
PANTONE® 490 C	PANTONE® 476 C	PANTONE® 7504 C	PANTONE® 7501 C	PANTONE® 7402 C	PANTONE® 7401 C	

DIGITAL PRINT - multicolour print

This modern printing process is unbeatable and economically advantageous, especially for smaller quantities or multi-coloured designs.

The 4C-photo print offers you flexibility in colours, repeat length and low set-up cost.

Photo print on **taffeta ribbon** extra fine.
(Art. 5098)

Photo print on **taffeta ribbon**
with woven wired edge.

French Kiss (Art. 4099)
Seite 70 – 73

Photo print on **super satin** with woven edge.
This quality developed specifically for digital
print stands out due to its high-quality feel,
brilliant colour reproduction and fine resolution
of the print image.

(Art. 4974)

For your customized bow you can choose from all ribbons starting on page 37.

If desired, you can also opt for your own colour or logo as imprint.

Individual bows

Made-to-measure Bows

Whether, 2-loop, 4-loop, 6-loop, flat, pompom or special loop bow. Individually handmade (hand-bound) with wire clip, sticker, on backing paper or strap with elastic insert. Whether ribbon cut with or without elastic strap, stopper and much more (or or)

Share your wishes and ideas with us and we will manufacture within a short time a digital or even original sample.

Almost everything is possible - challenge us!

Types of Bows

with ends

B 2-loop bow
with ends

C 6-loop bow
with ends

D 2-loop bow
without ends

E Multiple loop
bow (pompom)
without ends

F flat bow
with 2 or 4 loops
and textile strap

G 1-loop bow
with textile strap

H Pretied ribbon
with textile strap

I Textile hanger
loop
with 1 stopper

J Textile hanger
loop
with 2 stoppers

For more detailed information concerning made-to-measure-bows, please request the special brochure "Prettier with a bow"

Write us a mail on info@sopp.de
or give us a call +49 2191 - 567 - 0

Attachment

In order to enable your bow to be attached in the best possible way, depending on its use, with a minimum of effort. We offer various fastening options from which you can choose.

1 with wire twist

2 with sticker

3 with textile strap and sticker

4 with elastic strap

5 with textile strap and elastic element

Integrated label tags

We will gladly tie your own label tags into the bow.

The tags can be used in almost any format. As long as they are perforated (punched).

Expandable Bows

These Expandable bows adapt to many different packaging sizes.

- One bow size suitable **for many packaging formats**
- **2 widths** 12 and 18 mm
- **Strap length** according to your specifications
- **Elastic ribbon**
- **Expandable** up to **70%**

Colours are possible in Pantone according to your specification.

REBOW

Made of PET bottles recycled bows
in shiny satin look.
Ribbon belt fastener: 2x 15 cm length.

**Quick. Beautiful. Sustainable.**

With the practical belt fastener for tying it yourself!
Perfect for almost any type of packaging.

**1**

Place the bow on or around the package and lay the ends of the ribbon on top of each other to form a knot.

**2**

Tightly fasten the ends of the tape. If desired, attach a tag with a knot.

**3**

The ends can be cut off or used as an optical element. It's done.

Sustainable logo print on Tencel

Set an example and show your customers your personal and entrepreneurial approach to sustainability and ecology.

Your logo, refined to a high standard on a Tencel ribbon, will plant your message with both optical as well as haptic perfection into the mindset of your customers.

Feels so right

Botanical origin

TENCEL™ fibers come from sustainable wood sources – natural forests and sustainably cultivated plantations. The wood and pulp is harvested from certified and controlled sources.

Biodegradable yarn

The Organic Waste Research Laboratory Systems and the TÜV confirm the biodegradability of Tencel™. The yarns are completely degradable in the soil, compost and also in fresh and sea water.

Sustainable production

TENCEL™ fibers are made in an environmentally friendly closed-loop production process that converts wood pulp into cellulose fibers with high resource efficiency and a low environmental impact. This solvent spinning process recycles

Color brilliance

The smooth surface of the TENCEL™ fibers allows dyes to penetrate deep into the fiber structure, which results in impressive colour brilliance.

TENCEL

Woven ribbon in linen-style.
