# Beautify your gifts

Giving beautiful and environmentally friendly gifts at the same time - from and with Sopp Industrie, of course Sustainability will become the new normal and is currently the topic. This means a great challenge for our society, as we also have to adapt and change in everyday life.

At Sopp Industrie we have already started to rethink and have been using alternative materials for some time in order to inspire you, dear customers, with new, environmentally friendly ideas. Our aim remains to create particularly beautiful, decorative products while at the same time taking our environment into account.

The added value of our ribbons, cords and bows in general, especially in connection with high-quality brands and products, remains undisputed and increases when biodegradable or 100% recycled materials are used. We are thus making a first contribution to becoming more "sustainable". Take part!

We hope you enjoy getting to know our new products.  
Find out more and challenge us.  
As always, our proven team is at your side with help and advice.

Yours  
Michael Gerke & Kevin Maar  
CEOs

*More Success  
with Bows and Ribbons*

Bows – the ultimate symbol of gifting.  
Ribbons have the „stopping power“ to set products on the shelf apart from others.  
They indicate more value compared to other products and thus influence buying behavior.

## DEVELOPMENT AND CONSULTING

We set the highest standards of quality not only with our bows and ribbons, but also with our service. There are several stages between your idea and the finished product, which we will briefly explain here.

### 1. From the idea to the design

Every project starts with comprehensive and competent advice. We discuss how we can best present your products and which materials and printing processes are most suitable.

Your wishes and ideas already start to take shape.

### 2. At the loom

Our products can also be woven to your specifications. Special widths and designs are possible for orders that meet minimum quantity requirements. Soft satin, grippy taffeta or shimmering organza form the basis of your beautiful ribbon.

### 3. Now things get colourful!

Now the material is dyed. Our colour palette leaves nothing to be desired and, in addition to bright and cheerful colours, also allows for refined natural tones, current trending colours and, of course, classic black and white.

#### 4. Custom prints

Whether you want to place your company logo, specific images and symbols or an effective advertising message on your ribbon: Our high-precision printing processes implement your ideas. With classic flat printing, tactile relief printing and luxuriously glossy accents, your ribbon becomes unmistakable.

*Find more informations on page 36.*

#### 5. Completion

Finally, the finished ribbon is tied into beautiful bows according to your ideas or completed with special accessories. The result is a special decorative highlight, which is delivered to you right on schedule.

*Our made-to-measure bow pattern can be found on page 12.*

Gift cards in slipcase  
with decorative bow  
in 3 different  
bow colours  
(golden, red, brown).

With or without viewing  
window on the front.

## Gift cards in slipcase with decorative bow

True to the motto „Haptics in the new Optics“ our bow gift cards emphasise the gift character of your individual voucher card and the value of your offer with a handmade textile bow.

- Slipcase
- + optionally with window
  - + decorative bow
  - + insert card  
with your design
  - + optionally with an  
adhesive dot for  
electronic voucher

In the classic A6 format (postcard)  
Image in original size

**BOWCARDS.COM**

PRETTIER WITH A BOW!

The gift card is completely inserted in the slipcase (cover) and the viewing window shows a part of the print.

Insert card with your individual design

### Important:

with 2 stoppers

For more detailed information concerning made-to-measure-bows, please request the special brochure "Prettier with a bow"

Write us a mail on [info@sopp.de](mailto:info@sopp.de)  
or give us a call +49 2191 - 567 - 0

## Attachment

In order to enable your bow to be attached in the best possible way, depending on its use, with a minimum of effort. We offer various fastening options from which you can choose.

**1** with wire twist

**2** with sticker

**3** with textile strap and sticker

**4** with elastic strap

**5** with textile strap and elastic element

## Integrated label tags

We will gladly tie your own label tags into the bow.

The tags can be used in almost any format. As long as they are perforated (punched).

## Expandable Bows

These Expandable bows adapt to many different packaging sizes.

- One bow size suitable **for many packaging formats**
- **2 widths** 12 and 18 mm
- **Strap length** according to your specifications
- **Elastic ribbon**
- **Expandable** up to **70%**

Colours are possible in Pantone according to your specification.

### **Bow Collection available from Stock**

This is how you pack effectively, quickly and efficiently:

Handmade bows in different sizes and colours.  
Easy to apply, thanks to wired clips, adhesive stickers  
or elastic straps.

Attractive selection for numerous seasonal occasions.

- Small packing units of only 250 pieces
- Minimum purchase only 1000 pieces in total
- Delivery within 3-4 working days

# REBOW

## THE RECYCLED BOW

From the PET bottle to the bow.  
Our sustainable „REBOW“ bows made of 100% recycled PET will inspire you in 2 widths and 5 great colours and very practical ribbon belt fastener of 2x 15 cm length each.

- ▶ 100% recycled polyester
- ▶ Pure product with no compounds
- ▶ Manual binding without external materials
- ▶ Global Recycled Standard Certified yarn

### REBOW

Made of PET bottles recycled bows  
in shiny satin look.  
Ribbon belt fastener: 2x 15 cm length.

### Quick. Beautiful. Sustainable.

With the practical belt fastener for tying it yourself!  
Perfect for almost any type of packaging.

**1**

Place the bow on or around the package and lay the ends of the ribbon on top of each other to form a knot.

**2**

Tightly fasten the ends of the tape. If desired, attach a tag with a knot.

**3**

The ends can be cut off or used as an optical element. It's done.

### **Branding and customization**

A ribbon or even a bow with your distinctive design, such as your company logo, is an excellent way to advertise. Highly modern printing methods and high-quality materials ensure a result that is plain to see and above all easy to feel.

We can offer you customized solutions starting from small quantities at attractive prices.

If you contact us, we will advise you thoroughly and competently so that your product can optimally come into its own.

## **MONOCHROME PRINT - 1-c print**

We offer monochrome printed ribbon from a run of 1.000 m / 20 rolls. You can choose from 4 different ribbon qualities.

### **Double faced satin ribbon**

with woven edge  
Satina (Art. 4972)  
Page 78 – 79

### **French taffeta ribbon**

with woven wired edge  
French Kiss (Art. 4099)  
Page 72 – 73

### **Grosgrain ribbon**

## DIGITAL PRINT - multicolour print

This modern printing process is unbeatable and economically advantageous, especially for smaller quantities or multi-coloured designs.

The 4C-photo print offers you flexibility in colours, repeat length and low set-up cost.

Photo print on **taffeta ribbon** extra fine.  
(Art. 5098)

Photo print on **taffeta ribbon**  
with woven wired edge.

**French Kiss** (Art. 4099)  
Seite 72 – 73

Photo print on **super satin** with woven edge.  
This quality developed specifically for digital  
print stands out due to its high-quality feel,  
brilliant colour reproduction and fine resolution  
of the print image.

(Art. 4974)

### **Patterned and themed ribbons**

Inspiration for your seasonal packaging and decoration: Fashion institutes and trend scouts develop exciting colour and decoration themes, which are presented here in an attractive product selection and support our customers optimally.

## Standard & plain colour ribbons

Extensive stock assortment of ribbons in metallic and plain colours. Fashionable and classic colours with high colour fastness.

Different types of material like Organdy, Satin, Taffeta and Grosgrain ribbons emphasize the haptic of the woven textile products. Depending on the customer's preference, products with wired edge, form-retaining edge and non-reinforced woven edge.

## Sustainable logo print on Tencel

Set an example and show your customers your personal and entrepreneurial approach to sustainability and ecology.

Your logo, refined to a high standard on a Tencel ribbon, will plant your message with both optical as well as haptic perfection into the mindset of your customers.

Feels so right

### Botanical origin

TENCEL™ fibers come from sustainable wood sources – natural forests and sustainably cultivated plantations. The wood and pulp is harvested from certified and controlled sources.

### Biodegradable yarn

The Organic Waste Research Laboratory Systems and the TÜV confirm the biodegradability of TENCEL™. The yarns are completely degradable in the soil, compost and also in fresh and sea water.

### Sustainable production

TENCEL™ fibers are made in an environmentally friendly closed-loop production process that converts wood pulp into cellulose fibers with high resource efficiency and a low environmental impact. This solvent spinning process recycles.

### Color brilliance

The smooth surface of the TENCEL™ fibers allows dyes to penetrate deep into the fiber structure, which results in impressive colour brilliance.
